

A PLUS

**Driven by Precision.
Built on Trust.**

Infrastructure Solutions That Perform

WHO WE ARE?

Trusted Partner in Infrastructure Delivery

Supporting telecom providers, utilities, and municipalities with dependable infrastructure solutions.

We bring practical field experience and a structured approach to execution.

Each engagement is approached with a focus on consistency, reliability, and alignment with long-term infrastructure performance.

TRACK RECORD

**200+
Projects**

Delivered

**Across
Canada**

Ontario, Quebec,
Alberta, & British
Columbia

**Multi-
Sector**

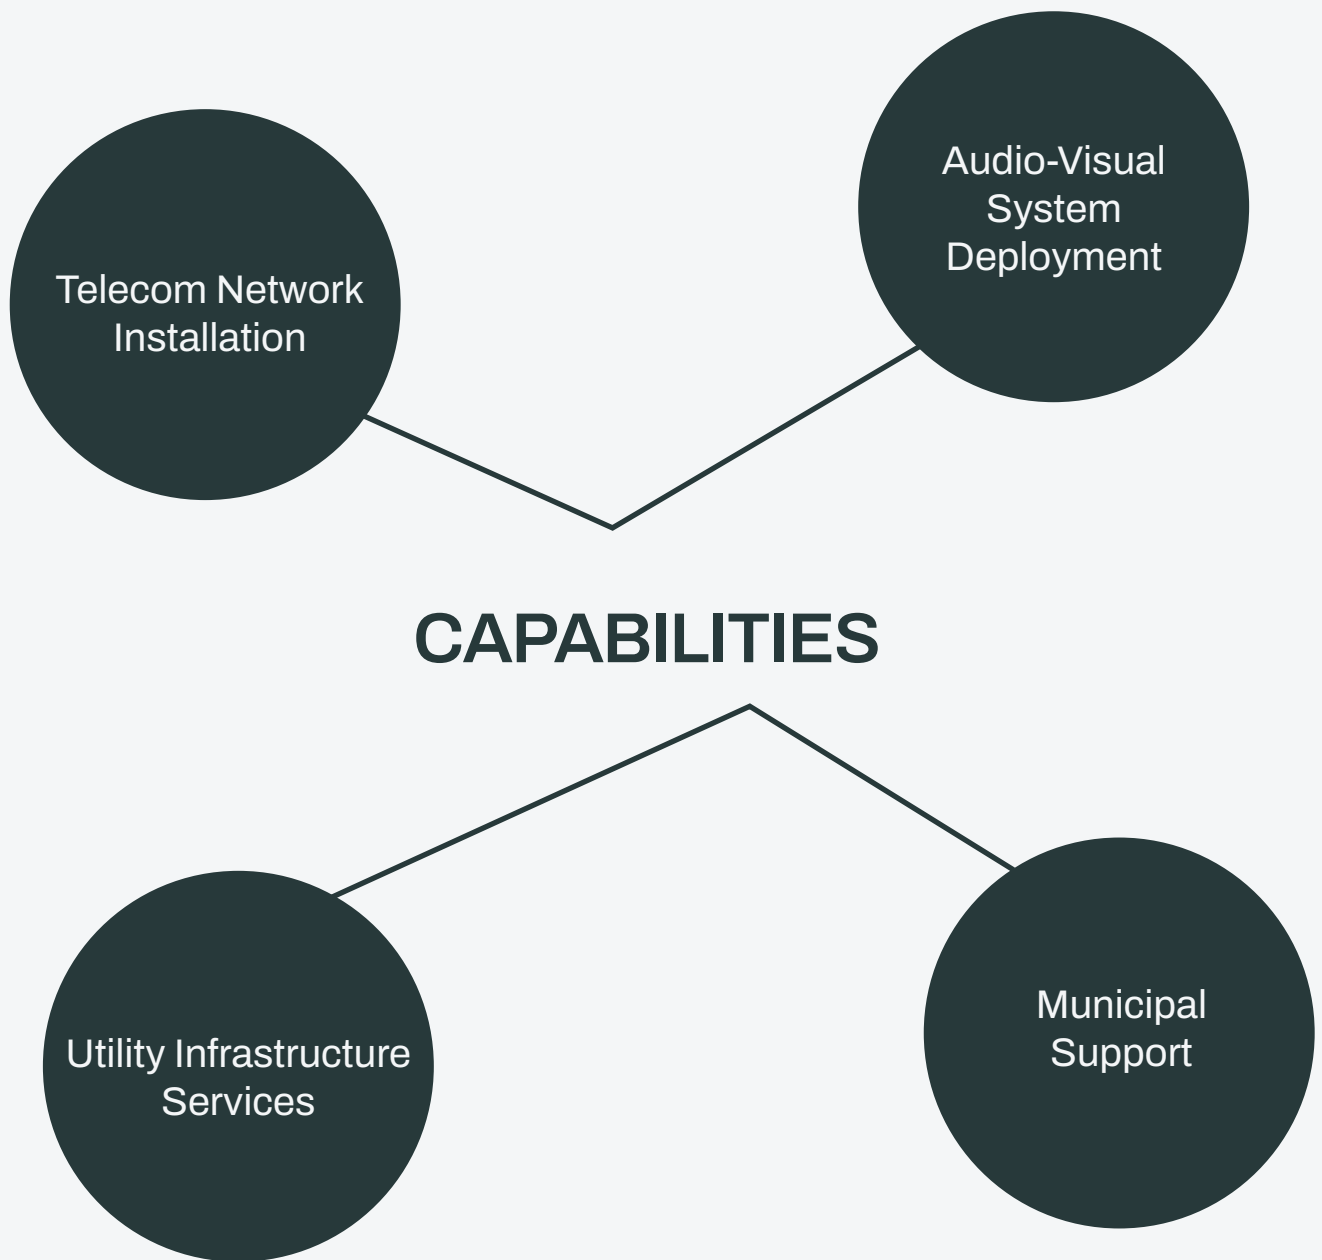

Capabilities

A consistent track record built through disciplined execution and technical reliability.

WHAT WE DO?

Focused Capabilities. Consistent Execution.

A consistent track record built through disciplined execution and technical reliability.

Precision Telecom Networks

1

Network Installation

Placement of fiber optic & copper cable networks across underground, aerial, & indoor environments.

2

Termination and Testing

We specialize in single fibre & ribbon fibre splicing, supported by OTDR & power meter testing to ensure optimal signal performance, precise diagnostics, & dependable fibre optic networks.

3

ISP and OSP Execution

Work delivered across both inside plant & outside plant environments, supporting complete network deployment.

Reliable communication networks depend on well-executed infrastructure. We contribute to this through specialized installation and field support.

AUDIO-VISUAL & UTILITIES

Enabling Clear & Consistent Communication

Audio-Visual

- Meeting Room Systems
- Digital Displays
- System Integration

Utilities

- Underground Infrastructure Locates
- Wooden Pole Testing / Test & Treat
- Infrastructure Assessment

We deliver reliable AV and utility solutions that power collaboration & ensure infrastructure integrity.

MUNICIPALITIES

Supporting Public Infrastructure Systems

Infrastructure Assessment

Evaluation of municipal systems to identify performance gaps & improvement areas.

Engineering & Design Support

Provision of technical design input aligned with infrastructure requirements.

Project Management

Coordination & oversight to ensure projects are delivered within scope and timelines.

We support municipalities through structured technical services aligned with infrastructure development and maintenance.
